Two YvB months **32**

Britton (1980) lists Kilimanjaro, Meru and Olosirwa in the Crater Highlands. However there are no recent records from the Crater Highlands. The breeding record shown here is that of Hugh Elliott from January 1945. Does no one walk on Olosirwa thesedays ? and has it really disapeared from Mt Meru ?

Britton also mentions a sight record from the Livingstone Mts and there is a recent record from nearby 3509C. These most likely refer to wanderers of the race *N. j. nyikensis* from the Nyika Plateau in Malawi and are shown here as red circles.
